PREFACE

HYPERLINK FEATURE

The digital version of this report has been hyperlinked. Click on the title of a section or a table in the List of Tables and you will be automatically directed to the actual content section or table in the report.

This report provides the detailed results, presented in tables organized by topic, for each question from the 2023-24 *California School Parent Survey* (CSPS). The CSPS is specifically designed to provide data to help foster better parental involvement, one of the required priorities of Local Control and Accountability Plans (LCAP), and to bring parent voice into the school improvement process. (Henceforth, the word parent is used to refer to any adult in a household with parental or guardianship responsibilities.)

The survey aims to raise awareness of how well the school is doing in its parent involvement efforts and what are the needs and concerns of parents that the school should address. It is a means to confidentially obtain parent perceptions about learning and teaching conditions, school climate, and parent-school involvement and relationships, including whether the school environment is academically challenging, caring and welcoming, participatory, safe, and fair. More information about the survey is available on the CalSCHLS website (calschls.org).

The CSPS, along with its two companion surveys—the *California Healthy Kids Survey* (CHKS) and the *California School Staff Survey* (CSSS)—is a service of the California Department of Education (CDE). These three surveys form the *California School Climate, Health, and Learning Survey (CalSCHLS) System*. CalSCHLS is the largest, most comprehensive state effort in the nation to assess students, staff, and parents on a regular basis. The surveys provide key data on school climate and safety, learning supports and barriers, and stakeholder engagement, as well as youth development, health, and well-being (see calschls.org) to guide school improvement efforts.

THE IMPORTANCE OF PARENT INVOLVEMENT

Parent involvement in the school and their own child’s education is one of the important characteristics of a positive school climate and quality education. A large and growing body of evidence has linked school success to the manner and degree to which a school communicates with parents, engages them both in school activities and education, and fosters a school climate that parents perceive as warm, inviting, and helpful—all variables assessed by the CSPS.

Involving family members is essential to creating a safe, caring, challenging, participatory, and supportive school climate. Positive relationships or ties among students, parents, teachers, administrators, and the fostering of parental support for education, are key components of school improvement efforts and are a common characteristic of effective schools. Parent involvement at school and in education has positive effects on youth behavior, academic achievement and learning, school attendance, and graduation. Many studies show that parent and other family involvement in children’s learning is a critical element of student success.

SURVEY CONTENT OVERVIEW

The CSPS serves two primary purposes. First, it addresses most of the key issues in regard to parent involvement in both the school and their own child’s education. Second, it provides feedback on how parents view school climate, including their perspective on the degree to which positive conditions and supports exist at school. It asks parents and guardians to rate their own experience as school partners. The survey content covers several key areas:

- Characteristics of parent respondents and their children;
- Student supports and school conditions (learning environment, school discipline, cultural sensitivity, opportunities for meaningful student participation);
- How welcoming the school is to parents;
- The scope and nature of parent involvement in school activities and decision-making;
- The scope and nature of school communications to parents;
- Parent involvement in their children’s education;
- Student risk behaviors (how much of a problem at the school).

The questions are aligned with the staff and student surveys so information obtained across these three stakeholder groups can be compared, as illustrated in Exhibit 1.

SURVEY ADMINISTRATION AND SAMPLING

Surveys are administered using detailed instructions provided by CalSCHLS technical advisors. A local survey coordinator plans, schedules, and monitors the CSPS. In keeping with the differences in the digital connectedness of parents, districts can administer the survey using an online format, paper forms, or a mix of the two.

Parent participation is completely voluntary, anonymous, and confidential. The survey’s target sample (those asked to take the survey) are generally all parents and guardians of students in all the schools, regardless of grade. Minimally, the survey’s target sample should include the parents who have children in the grades in which students completed the CHKS. Table A1.1 gives the final number of parents who completed the survey. Because of the difficulty of accurately identifying the number of parents at any given school that could have completed the survey, a participant response rate is not calculated, as it is with the student survey.

THE REPORT

The tables in this report, organized by topic, provide the percentage of parents responding to each question’s response option for the whole district and by school levels in which the survey was administered (elementary, middle, high, and nontraditional). In the tables, percentages are rounded to the nearest full percent. Depending on the number of respondents, individual school reports can also be provided.

ONLINE DATA DASHBOARD

Districts may purchase a two-year subscription to a password-protected, private data dashboard that displays up to 11 years of CalSCHLS data at not only the district level but also the *individual school level*. The dashboard provides designated staff with graphical data displays for the district as a whole,

for all schools in the district on the same page to enable comparisons across schools, and for a single, individual school. At both the district and school level, viewers can:

- compare their data with district and state averages;
- make comparisons across groups such as race/ethnicity, parent role at home, English language development program participation, special education program, and afterschool participation; and
- examine data trends over time overall and by different demographic groups.

Viewers at both the district level and the school level have the option to download data displays as a PDF document which can be shared with stakeholders.

UNDERSTANDING THE DATA

The findings reflect the *perceptions* of parents. Some parents may have reasons to make their school look good; others, to paint an overly negative picture. The perceptions of the parents may be very different from those of students or staff or from an independent observer of the school. This is one reason why it is important to compare CSPA results to those in the CHKS and CSSS. Nevertheless, parent perceptions reflect a *reality* that is important and can influence both staff and student performance.

Care must be taken to understand the factors that can impact the quality, validity, and generalizability of the results. Many factors besides real changes in behavior, attitudes, or experiences among parents may account for changes in results from administration to administration. Changes may be due to differences over time in the characteristics or number of the respondents who completed the survey (see below), changes in the questions themselves, or differences between time periods in which the survey was administered (e.g., parental feedback may be more informed in transition grades later than earlier in the school year).

IMPROVING SURVEY PARTICIPATION

Among the most important factors affecting the quality of survey results is the level of parent participation. The higher the number of parents that completed the survey out of the total number contacted, the more likely the results are valid and represent the parents that had the opportunity to complete the survey. Even if the response rate is low, the results provide an indication of the school-related feelings and experiences of those parents who did respond.

The most important strategy for improving parent participation over time may be to ensure that the results of the survey are communicated to parents and that parents are involved in the process of reviewing the data and determining how to improve the school (see Next Steps below).

RESOURCES

CalsCHLS.org contains numerous guidebooks and other resources for using and understanding survey results.

- CHKS **factsheets** analyze key topics at the state level, show how data variables are related, and offer suggestions for how data can be analyzed at the local level (calschls.org/resources/factsheets).
- *Making Sense of School Climate* provides a discussion of CalSCHLS survey items that relate to school climate (data.calschls.org/resources/S3_schoolclimateguidebook_final.pdf).

- The **California Center for School Climate** (ca-safe-supportive-schools.wested.org/california-center-for-school-climate/) provides free support and trainings on school climate and data use to LEAs in California. The website provides archived virtual events and other school climate improvement resources.
- The **California Safe and Supportive Schools Newsletter** provides monthly announcements of resources, tools, webinars and workshops, and research. Sign up on ca-safe-supportive-schools.wested.org/subscribe/.
- CDE’s **California Safe and Supportive Schools** website (ca-safe-supportive-schools.wested.org) contains a wealth of information and tools related to school climate improvement and social-emotional learning. It includes factsheets analyzing CalSCHLS data and *What Works Briefs* that provide guidance on strategies to implement.
- The **CalSCHLS Item Crosswalk** (calschls.org/resources/#resources_and_tools) is a handy table listing all the constructs and questions that are on two or more of the CalSCHLS surveys, along with the report table number where results can be found, to assist in the comparison of findings among students, staff, and parents.

NEXT STEPS

Receiving this report is just a beginning step in a data-driven decision-making process. The following next steps will help in fostering effective use of the results to support school and program improvement efforts.

Request School Reports

If the schools in the district vary significantly in demographics, programs, or other characteristics, consider requesting individual parent survey reports for each school.

Request Disaggregated Report or Analyses

The CalSCHLS team can produce reports that look at how results vary by the demographics of parents and/or their children, by the level of parent involvement in schools, by whether parents had positive experiences compared to those with negative, or by other characteristics.

Compare Results with Student and Staff Surveys

Although the survey results should be useful to any school community when used alone, a more powerful view of the school can be obtained by comparing these findings with those from the California Healthy Kids Survey of students and the California School Staff Survey. As part of the data review process, it is important to determine how consistent are student, staff, and parent perceptions and experiences.

Exhibit 1 below summarizes the variables assessed across the surveys. The CalSCHLS Item Crosswalk showing similar survey questions across the three surveys (student, staff, and parent) is posted on the CalSCHLS website (calschls.org/resources/#resources_and_tools). To enhance both survey administration efficiency and data comparability, schools are encouraged to administer the surveys at the same time.

Engage Parents in an Action Planning Process

- To assist in your review of the survey results, you can request your CalSCHLS technical advisor to conduct a structured, customized *Data Workshop*. In this workshop, a survey

specialist works with district stakeholders to promote better understanding of the results and to identify local needs that need to be addressed. The workshops can also include engaging stakeholders in developing a detailed Action Plan and timetable for meeting those needs using evidence-based strategies. For more information, contact your CalSCHLS technical advisor (calschls.org/contact) or email calschls@wested.org.

Add Questions to Your Next Survey

As part of your data-review process, determine what additional information is needed from parents to guide school improvement efforts and consider adding questions to your next CSPA. The survey was designed so that schools can add additional questions to help them conduct a more individualized and comprehensive assessment.

For more information about survey planning or technical assistance in understanding survey results and developing effective action plans to address identified needs, call the CalSCHLS helpline (562.799.5164) or email calschls@wested.org.

Yes - 4 days a week	3	3	3	3	–
Yes - 5 days a week	18	27	12	7	–

Question A.6: Does one or more of your children participate in this school’s afterschool program? (Respond for your child that most frequently participates in the afterschool program.)

Note: Cells are empty if there are less than 5 respondents.

4. Learning from Home

Table A4.1

Remote Learning Schedule (Remote Only)

	All %	ES %	MS %	HS %	NT %
Number of weekdays my child participated in school from home					
0 days					–
1 day					–
2 days					–
3 days					–
4 days					–
5 days					–
Not sure					–

Question A.56: Last week, how many weekdays did your child participate in school from home?

Notes: Cells are empty if there are less than 5 respondents.

^{||}*Last week.*

Table A4.2

Perceptions of Remote Learning (Remote Only)

	All %	ES %	MS %	HS %	NT %
Our school/district has done a good job keeping me informed about remote learning.					
Strongly agree					–
Agree					–
Disagree					–
Strongly disagree					–
Not sure/NA					–

Question A.64: As you answer these questions, please think about you and your child's experience right now...

Our school/district has done a good job keeping me informed about remote learning.

Note: Cells are empty if there are less than 5 respondents.

Table A4.3**Rating of School Remote Learning Program (Remote Only)**

	All %	ES %	MS %	HS %	NT %
0 - Extremely unsuccessful					–
1					–
2					–
3					–
4					–
5					–
6					–
7					–
8					–
9					–
10 - Extremely successful					–

Question A.65: On a scale of 0 to 10, with 0 being extremely unsuccessful and 10 being extremely successful, how successful has remote or distance learning been for you and your child during the 2023-24 school year?

Note: Cells are empty if there are less than 5 respondents.

Table A4.4**Opportunities for Student Connection (Remote Only)**

	All %	ES %	MS %	HS %	NT %
My child has opportunities to connect and interact with classmates during remote learning.					
Strongly agree					–
Agree					–
Disagree					–
Strongly disagree					–
Not sure/NA					–

Question A.60: As you answer these questions, please think about you and your child's experience right now. How strongly do you agree or disagree with the following statements?... My child has opportunities to connect and interact with classmates during remote learning.

Note: Cells are empty if there are less than 5 respondents.

5. Student Motivation and Optimism

Table A5.1

Student is Motivated to Complete Schoolwork

	All %	ES %	MS %	HS %	NT %
Strongly agree	42	50	36	32	–
Agree	42	39	42	47	–
Disagree	10	7	13	14	–
Strongly disagree	3	1	5	4	–
Not sure/NA	3	3	4	2	–

Question A.61: As you answer these questions, please think about you and your child's experience right now. How strongly do you agree or disagree with the following statements?... My child is motivated to complete the schoolwork she/he is assigned.

Note: Cells are empty if there are less than 5 respondents.
