Superintendent's Message: Distance Learning Survey for Parents, Teachers, and Secondary Students

Dear Parents, Guardians, Teachers and Secondary Students,

We made a commitment to get your feedback at the start of our distance learning journey in August. Please complete our Distance Learning Survey, as we wrap up our fourth week of the 2020-21 school year.

We have created similar, yet separate surveys, for parents (Child Development Services to 12th grade), middle and high school students, and classroom teachers. With this format, we may compare data, and also identify successes and challenges for each group:

[Parent survey](#)

[Middle and high school student survey](#)

[Teacher survey](#)

Your feedback regarding distance learning will guide us toward making any needed improvements and duplicating successes.

The survey deadline is Friday, October 2, 2020 at 5 p.m.

We appreciate the effort and patience of our teachers, students, and parents as we navigate these difficult times in education. We are all looking forward to the day when our schools can resume in person instruction. Until then, we are committed to making the best of the current situation and appreciate your participation with this survey.

Sincerely,

Dr. Ben Drati, Superintendent
