[Webster Weekly](#)

Week of: February 1, 2021

PRINCIPAL'S MESSAGE

Dear Webster Families,

I hope you enjoyed this beautiful weekend! On Friday, February 5th, your child's *Standards Based Report Card* will be emailed to parents by 5:00 p.m. Teachers spend considerable time grading, assessing and crafting individualized comments to share with you regarding your student's progress. Please take time to review the report and its contents. Should you have any questions or concerns you should begin by emailing the teacher directly. It is remarkable to see how much students have grown and continue to make progress towards grade level standards. This is a testament to the commitment and skill of our teachers and the partnership and active role parents you, our parents, have taken in your child's learning during Distance Learning. Please refer to the links below [Report Card Guide](#) [La guía de la libreta de calificaciones](#).

The Board of Education has designated and adopted this week as Black Lives Matter in Schools Week, and tomorrow marks the beginning of Black History Month. Throughout this month students will engage in lessons and activities to acknowledge the contributions of Black Lives in America. We hope these opportunities will give our students opportunities to explore their role as a social justice agent in the work towards justice, equality and fairness in America. The SMMUSD [Board resolution](#).

Thank you,

Ms. Daruty

DISTANCE LEARNING:

THIRD GRADE: We have an exciting announcement for parents and guardians of third grade students. **Recorders are ready for pick-up NOW through 2/12.** They will be made available in the Webster auditorium on the third grade labeled table. Monday-Friday between 1:00 - 4:00 p.m. Please be sure to pick up **one** new recorder and **one** recorder book. **Please- Wear a mask, remain 6ft distanced from anyone in the auditorium and DO NOT come to campus if you are sick.** Recorders are the beginning of our nationally recognized music program and we are fortunate that through the generosity of the Santa Monica Education Foundation, SMEF, we are able to provide a brand new recorder and recorder book to every third grade student that they will be able to keep after the end of school. Thank you and welcome to the first stage of your child learning to read notes and rhythms on a music staff!"- Tom Whaley- SMMUSD VAPA Coordinator.

March 8th- 12th NatureBridge 5th Grade Yosemite Field Instruction Days. In spring our fifth graders usually take an amazing week long trip to Yosemite. This year, the program will not host our 5th graders due to COVID closure. In lieu of this trip, we have an opportunity for our students to engage in live (via video conferencing) lessons with Nature Bridge teachers to experience a field program. Learn more about the program by visiting their [website](#). Nature bridge teachers will utilize interactive technology tools such as Google Earth, Jamboards, breakout sessions and participant polls to bring Yosemite into our classrooms! In order for our students to have this amazing experience we are asking families to pay \$10.00 per 5th grade child. The money will go directly towards the program fee. Please submit payment via the PTA website **LINK TO COME.**

No student will be excluded from participation because of a lack of sufficient funds or denied the opportunity to participate because of non-payment of the fee. Please consider donating the cost for an additional child.

Next Week's Lessons-

TK & K- Next in the Digital Art unit, students will create their very own self portrait. We will look at different examples of self portraits and then students will open the drawing program called Tate Paint. Students will explore different tools like the pencil tool, shape tool and paint bucket tool. With extra time students will share their screens to show their self portraits.

1st- Continuing in our digital art unit, students will explore a new online art website called AutoDraw. In this lesson students will draw different pictures that correspond with the letters in the alphabet. The

John L. Webster Elementary School

students will use a feature called autodraw where the computer guesses what they are drawing and then the students can choose a drawing with some improvements.

2nd & 3rd- Students will continue to develop their 3D modeling skill and practice using our Tinkercad program. They will tackle their next project by creating a 3D model of a pizza. In this lesson students will learn how to cut a hole out of another solid shape. Students will get to create and add their favorite toppings to round out their pizza.

4th & 5th- Students will begin their next unit, STEAM. In this unit we will explore 3D modeling. Using a 3D modeling website called Tinkercad, students will login to their very own accounts and create various projects. To start, students will learn how to use Tinkercad to work with 3D shapes. We will learn how to place shapes, view it from all sides, move it around the workspace, rotate it and change the size.

Webster is a great school but we cannot be an AMAZING school without Parent Involvement. Please [join the PTA](#) and please support the [Annual Giving Campaign](#). Membership is just \$15 and allows you to vote at meetings, but more importantly is a symbol of unity between teachers and parents. The Annual Giving Campaign website will show you where your voluntary donation of \$1,500 goes. The services on this list are so important and allows our school to move from good to great. Thank you for your consideration! Lastly, the PTA website lists many local parent and child resources they have gathered. I cannot thank the PTA strongly enough.
