

the 1990s, the number of people in the United States who are 65 years of age or older has increased by 50 percent, and the number of people 75 years of age or older has increased by 75 percent. The number of people 85 years of age or older has increased by 150 percent. The number of people 95 years of age or older has increased by 300 percent. The number of people 100 years of age or older has increased by 500 percent. The number of people 105 years of age or older has increased by 1,000 percent. The number of people 110 years of age or older has increased by 2,000 percent. The number of people 115 years of age or older has increased by 4,000 percent. The number of people 120 years of age or older has increased by 8,000 percent. The number of people 125 years of age or older has increased by 16,000 percent. The number of people 130 years of age or older has increased by 32,000 percent. The number of people 135 years of age or older has increased by 64,000 percent. The number of people 140 years of age or older has increased by 128,000 percent. The number of people 145 years of age or older has increased by 256,000 percent. The number of people 150 years of age or older has increased by 512,000 percent. The number of people 155 years of age or older has increased by 1,024,000 percent. The number of people 160 years of age or older has increased by 2,048,000 percent. The number of people 165 years of age or older has increased by 4,096,000 percent. The number of people 170 years of age or older has increased by 8,192,000 percent. The number of people 175 years of age or older has increased by 16,384,000 percent. The number of people 180 years of age or older has increased by 32,768,000 percent. The number of people 185 years of age or older has increased by 65,536,000 percent. The number of people 190 years of age or older has increased by 131,072,000 percent. The number of people 195 years of age or older has increased by 262,144,000 percent. The number of people 200 years of age or older has increased by 524,288,000 percent. The number of people 205 years of age or older has increased by 1,048,576,000 percent. The number of people 210 years of age or older has increased by 2,097,152,000 percent. The number of people 215 years of age or older has increased by 4,194,304,000 percent. The number of people 220 years of age or older has increased by 8,388,608,000 percent. The number of people 225 years of age or older has increased by 16,777,216,000 percent. The number of people 230 years of age or older has increased by 33,554,432,000 percent. The number of people 235 years of age or older has increased by 67,108,864,000 percent. The number of people 240 years of age or older has increased by 134,217,728,000 percent. The number of people 245 years of age or older has increased by 268,435,456,000 percent. The number of people 250 years of age or older has increased by 536,870,912,000 percent. The number of people 255 years of age or older has increased by 1,073,741,824,000 percent. The number of people 260 years of age or older has increased by 2,147,483,648,000 percent. The number of people 265 years of age or older has increased by 4,294,967,296,000 percent. The number of people 270 years of age or older has increased by 8,589,934,592,000 percent. The number of people 275 years of age or older has increased by 17,179,869,184,000 percent. The number of people 280 years of age or older has increased by 34,359,738,368,000 percent. The number of people 285 years of age or older has increased by 68,719,476,736,000 percent. The number of people 290 years of age or older has increased by 137,438,953,472,000 percent. The number of people 295 years of age or older has increased by 274,877,906,944,000 percent. The number of people 300 years of age or older has increased by 549,755,813,888,000 percent. The number of people 305 years of age or older has increased by 1,099,511,627,776,000 percent. The number of people 310 years of age or older has increased by 2,199,023,255,552,000 percent. The number of people 315 years of age or older has increased by 4,398,046,511,104,000 percent. The number of people 320 years of age or older has increased by 8,796,093,022,208,000 percent. The number of people 325 years of age or older has increased by 17,592,186,044,416,000 percent. The number of people 330 years of age or older has increased by 35,184,372,088,832,000 percent. The number of people 335 years of age or older has increased by 70,368,744,177,664,000 percent. The number of people 340 years of age or older has increased by 140,737,488,355,328,000 percent. The number of people 345 years of age or older has increased by 281,474,976,710,656,000 percent. The number of people 350 years of age or older has increased by 562,949,953,421,312,000 percent. The number of people 355 years of age or older has increased by 1,125,899,906,842,624,000 percent. The number of people 360 years of age or older has increased by 2,251,799,813,685,248,000 percent. The number of people 365 years of age or older has increased by 4,503,599,627,370,496,000 percent. Why learn a World language in Malibu High?

REAL LIFE

Speaking another language is **a real-life skill** that is useful in a variety of situations like **traveling**, watching foreign movies or listening to music, **studying abroad**, meeting new people, **working in a wide variety of careers** (international relations, journalism, hospitality, tourisme, business, entertainment, fashion, ...)

COLLEGE ADMISSION

3 years is highly recommended or required for 4-years college admission
4 to 5 years give you an edge for admission

French and Spanish are academic electives that are **highly regarded by college admissions.**

COLLEGE SKILLS

College language requirements : at least 3 semesters + placement test upon arrival. **Use it or lose it:** students that haven't taken language classes since Sophomore or junior year usually **score as beginners**

Students are **better prepared** when they learn a language in HS. Starting as a beginner in college is not easy. PACE IS : 1 college semester = 1.5 year of HS

What to expect In French and Spanish classes at MHS

Spanish and French classes are **proficiency based**, with a **focus on communication** (speaking and understanding).

All language students participate in **culture week**: a **full week dedicated to cultural exploration** during 1st semester. Play board games, learn how to dance, navigate a scavenger hunt and listen to music and pop culture and more!

All language students participate in **World Language Day** during 2d semester. Students get to **work in groups and present their project** in French and Spanish to peers, family members and teachers.

What are the benefits of keeping up with upper levels French and Spanish?

Spanish 3 / French 3 classes are the turning point of your language learning journey. Don't stop at level 3, **you have done the heavy lifting!**

Level 4 and 5 students get rewarded for all their efforts with a **high level of proficiency, ease in communication, discussing topics of interest, ability to read newspaper and novels, watch movies and TV shows, songs...**

Level 5 is an AP class with **AP credit that can waive** 4-year colleges' language requirements. Ex: UCSD requires **up to 4 quarters** to graduate!

Not the majority of college applicants have an AP World Language class :

- it **sets you apart for college admission**
- Sticking to a language throughout HS **speaks to your character in your college application**: consistency, dedication, ...but also empathy and open mindedness.

Research shows that learning another language **helps with other classes** and helps develop effective learning strategies!

Do employers value employees with language and culture skills?

In a survey of 2100 U.S. HR departments...

93% of respondents value employees who are able to work effectively with customers, clients, and businesses from a range of different countries and cultures.

Language Skills

Marketing

Skill sets sought in combination with foreign language ability

REASONS WHY YOU SHOULD LEARN A Second Language

GRASP BETTER KNOWLEDGE OF CULTURAL DIVERSITY

Learning the language is also understanding the culture more deeply, and making a comparison with your own culture.

INCREASE YOUR BRAINPOWER

Based on studies, learning another language increases brain power and offers proven benefits for intelligence, memory, and concentration. It can also prevent the development of Alzheimer's and Dementia.

INCREASE YOUR VOCABULARY IMPROVEMENT

The study of another language improves the knowledge of one's native tongue and increase vocabulary skills.

Annyeong
haseyo!

BOOST YOUR CONFIDENCE

The positive feedback from native speakers will motivate you and boost your ego, plus you can impress people and get plenty of compliments with your unique communication skill.

ENJOY INTERNATIONAL ART, LITERATURE, MUSIC AND FILM IN THEIR ORIGINAL LANGUAGE

Deep understanding and appreciation of a piece of art comes from understanding its origin and own language.

MAKE YOUR TRAVEL MORE ENJOYABLE

Knowing how to communicate with a country's locals using their own language results in warm smiles and invitation to drink or celebrate.

GLOBAL EMPLOYMENT & BETTER JOB OPPORTUNITIES
