

YOUR INPUT NEEDED AS WE CONSIDER CHANGES FOR 9 CAMPUSES!

The district and selected architects are performing campus assessments of nine Santa Monica schools.

You are invited to these online meetings, during which architects will guide discussions about what is working, what needs improvement and what those improvements might look like.

Projects selected by this process and ultimately approved by the SMMUSD Board of Education, will be paid for with approximately \$100 million from Measure SMS passed by voters in 2018 for schools in Santa Monica.
