2023-2024 School Accountability Report Card

(Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement
<p>John L. Webster Elementary School is a grades TK-5 school located in the heart of Malibu, California, with an enrollment of approximately 205 students, with class size averages of 19:1. The school employs 12 teachers and is supported by a dedicated team that includes a Language and Literacy Interventionist, Speech and Language Pathologist, Occupational Therapist, Paraeducators, Campus Monitors, Custodians, Classroom Instructional Assistants, a School Psychologist, Health Office Specialist, Registered Nurse, part-time Registrar, and Office Manager.</p> <p>SMMUSD Vision Statement</p>

2024-25 School Description and Mission Statement

As a community of learners, the Santa Monica-Malibu Unified School District (SMMUSD) collaborates in a nurturing environment to help students become visionary, versatile thinkers; resourceful, life-long learners; effective multilingual communicators; and global citizens. Our culturally diverse community values social justice and the contributions of all its members. SMMUSD is committed to fostering academic achievement, character development, and personal growth while encouraging intellectual, artistic, technological, physical, and social expression.

Webster Vision Statement

At Webster Elementary, staff, parents, and community members work together to create engaging learning environments that spark curiosity, inquiry, and wonder. Our goal is to nurture thoughtful, empathetic problem-solvers with a strong foundation for future learning. A Webster graduate embraces a growth mindset, demonstrates adaptability and respect for diversity, sees challenges as opportunities, and communicates effectively through multiple mediums.

Commitment to Excellence

Webster Elementary is dedicated to creating an environment where every student can thrive—academically, creatively, and socially. Alongside a rigorous and engaging curriculum, the school emphasizes strong community connections through collaborative learning activities and planned events that foster teamwork and shared goals. Safety and a positive school climate are top priorities, ensuring students learn in a secure, welcoming, and fun environment.

Parent involvement is a cornerstone of Webster’s success, with parents playing an invaluable role through their contributions to school events, concerts, and other activities that enhance the educational experience.

Webster’s passionate and inspired staff is committed to cultivating a culture of critical thinking and learning. Four teachers have earned National Board Certification, demonstrating their dedication to professional excellence. The school has also been recognized as a California Distinguished School in 2010 and 2014, reflecting the exceptional work of its educators and staff. To ensure every student meets California State Standards, Webster employs state-adopted instructional materials, supplemental resources, ongoing professional development, and regular assessment data analysis to inform and guide instruction.

At Webster Elementary, we remain steadfast in our mission to empower students, nurture their potential, and prepare them for a bright future as engaged, compassionate, and well-rounded learners.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

All students at Webster Elementary have access to state-approved, district-adopted textbooks and instructional materials for all core academic subjects. The district adheres to state guidelines and adoption cycles, ensuring materials are up-to-date and aligned with educational standards. In the 2023-24 school year, new science and social studies materials were purchased and implemented.

Each student, including English learners, has individual access to textbooks or digital curriculum materials. The selection process for textbooks and instructional materials involves a district-wide committee of teachers and administrators. Recommendations are submitted for school board approval after an opportunity for public review and feedback.

Looking ahead, a math adoption aligned with the new California Department of Education (CDE) framework is scheduled for implementation in the 2025-26 school year. Additionally, Webster is focusing on the Science of Reading to enhance foundational literacy skills in the primary grades. The recently adopted science curriculum is fully aligned with the Next Generation Science Standards (NGSS), supporting a robust and modern approach to science education.

School Facility Conditions and Planned Improvements

Webster school was built in 1949. Two major reconstruction projects in the past 20 years have resulted in all new plumbing, heating, electrical, and roofing systems. Major improvements in seismic safety and accessibility are in place. All classrooms, the office, and the library are connected to the Internet through a high-speed connection and there is wireless access to the network throughout the school. The most recent taxpayer-funded reconstruction project, Proposition BB, has provided a significantly upgraded technology infrastructure and a completely new fire alarm system. Additional Proposition BB-funded projects related to school safety and security are in the final stages of the planning process, and the first of several construction phases is about to begin. A new library was completed in 2001. The playground includes two grass playfields and a play structure. Students are regularly expected to assist school and district staff in keeping the grounds free of litter.

Gardens and murals make the campus an especially beautiful and welcoming learning environment. The physical plant is well maintained and is in well-functioning condition. Each of our 13 classroom teachers has a dedicated classroom. Every classroom has an interactive white board and a SMART Board, an Elmo document camera, and every classroom from first through fifth grade has a chromebook for each student, allowing for a one to one technology program. Our library is beautiful and spacious. Our dedicated STEAM lab is equipped with a greenscreen, computers, ipads and technology to support interdisciplinary instruction. Our computer lab provides 33 iMac desktop computers, all online. There is a classroom provided for our after-school childcare program so no regular classrooms have to be shared for this purpose. There are many outside garden areas and patios regularly used for small group activities and special projects and events. Our cafeteria/auditorium was recently remodeled with a new stage curtain, sound system, and lighting.

2018 saw the completion of the new window paint and floor project. We also were able to do roof section repairs. In 2020 a central cooling and heating system was installed throughout the school.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

- 1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
- 2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
- 3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2022-23	School 2023-24	District 2022-23	District 2023-24	State 2022-23	State 2023-24

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

B. Pupil Outcomes

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Parents play a vital role in Webster's mission to provide a rich educational experience for every student. On any given day, 10-15 parent volunteers can be found actively supporting classrooms. Parents also raise substantial funds to provide materials and resources that enhance district programs.

Through the PTA, parents collectively support a wide range of initiatives, including assemblies, field trips, classroom materials, specialist instruction in STEAM and Gardening, community events, and after-school programs such as Math Club. Additionally, parents and community members share their talents, knowledge, and expertise as classroom speakers. These contributions, along with many other activities, are thoughtfully coordinated by the Webster PTA.

For more information about getting involved, please contact PTA President Bobbi Thomason at websterptamalibu@gmail.com.

2024-25 School Safety Plan

The safety and security of students and staff are a top priority at Webster Elementary. The School Safety Plan is reviewed annually by the staff and the School Site Council, which also makes recommendations for improvements. District support is sought to implement any recommended changes. The most recent review, update, and discussion of the Safety Plan occurred in September 2023, and it was ratified by the Board in October 2023.

Students are supervised by school staff at all times while on campus. School grounds open 15 minutes before school begins, with traffic, parking, and drop-off procedures developed in consultation with local law enforcement. Parent volunteers assist with traffic control and valet drop-off to ensure a smooth and safe arrival for students. During the school day, recesses are supervised by teachers, school staff, and parent volunteers. To enhance campus security, grades K-5 have a single main point of entrance and exit—the gate near the main office. This change ensures a secure and well-supervised environment for all students. All visitors must enter through the main office, sign in, and wear a visitor’s badge while on campus. During the school day, there is no unauthorized access to the campus, and students are only released to parents or their designees.

All adults, including parents, guardians, and family members, who work directly with children or participate in campus activities must complete volunteer training to ensure the safety and well-being of students. Parents and guardians must sign students out at the office if picking them up during the school day. After school, students must be enrolled in supervised programs, such as child care, homework club, or school-sponsored enrichment classes, if they remain on campus.

Staff members, including teachers and office staff, receive training in various areas related to student safety, including first aid. Additionally, the health office specialist, nurse, principal, and teachers are CPR certified, ensuring prompt and professional responses to medical emergencies. Webster Elementary is committed to providing a safe, secure, and nurturing environment where students can thrive.

Fiscal Year 2023-24 Types of Services Funded

Webster Elementary benefits from a combination of state and federal funding to support all aspects of its instructional programs. These funds provide resources for:

- Music Enrichment (Grades 3-5)
- Performing Arts: Dance (Grades 4-5)
- Special Education Services
- Language and Literacy Intervention (LLI)
- Summer School Programs

Title II Funding

Santa Monica-Malibu Unified School District (SMMUSD) utilizes Title II funds to support Math and Secondary Support Coordinators. These coordinators:

- Collaborate with teachers and administrators to enhance student learning in math content and practices.
- Facilitate and review the guaranteed and viable curriculum, including the use of common formative assessments to measure student achievement.
- Support ongoing intervention and enrichment opportunities to address student growth and individual needs.

Fiscal Year 2023-24 Types of Services Funded

Title III Funding

Title III funds are used to expand educational opportunities for English learners, focusing on improving language and academic proficiency. These funds also support efforts to enhance parent engagement opportunities.

This strategic use of funding ensures that Webster Elementary provides high-quality programs and resources that meet the diverse needs of its students.

Professional Development

At Webster Elementary, professional development is a cornerstone of continuous improvement and student success. All teachers and staff in the Santa Monica-Malibu Unified School District (SMMUSD) participate in weekly professional development sessions during 90 minutes of banked time. Districtwide professional development focuses on six key priorities:

- Reclassification
- Special Education
- Transformative Approaches
- Maintenance
- Fiscal Services
- Guaranteed Viable Curriculum

Additionally, SMMUSD emphasizes professional growth in areas such as:

- Restorative Justice (RJ)
- Project-Based Learning (PBL)
- Social-Emotional Learning (SEL)
- Supporting Multilingual Learners

In alignment with the District's mission and goals, Webster Elementary has developed a comprehensive professional development (PD) plan aimed at enhancing student engagement, academic achievement, and the development of 21st-century skills.

Over the past two years, professional development has focused on Project-Based Learning (PBL) and Tier One strategies with the following goals:

- Foster interdisciplinary learning through technology integration and community partnerships.

Professional Development

- Implement biannual long-form projects and mini-projects throughout the year.
- Highlight evidence of learning through portfolios, student reflections, and Deep Learning Expos.

For the 2024-25 school year, professional development emphasizes Mathematical Practice Standards. The Site Leadership Team (SLT) analyzed data on student performance in conceptual understanding, problem-solving, and reasoning to establish this focus. Teachers receive support through data dives, targeted trainings, and learning walks. Additionally, the SLT participates in at least three sub-out days annually to review data, observe classrooms, and refine instructional practices.

To further enhance professional development, all TK-5 teachers will complete two full-day training sessions in Restorative Justice (RJ), which aligns with Webster's theme for the year, "WE have Heart." This theme underscores the importance of creating a nurturing, inclusive environment where kindness, respect, and belonging thrive. By integrating RJ practices, the school fosters a supportive atmosphere where every child feels valued, empowered, and encouraged to grow academically and personally.

Through strategic and intentional professional development, Webster Elementary continues to build a thriving learning community that balances academic excellence with social-emotional well-being.

This table displays the number of school days dedicated to staff development and continuous improvement.
