Equity Report Findings

- Despite an excellent track record, SMMUSD schools have wide and persistent disparities in academic achievement and long-term academic outcomes.
- Prior efforts have failed to reduce disparities or produced sustainable improvements in academic outcomes for vulnerable student populations.
- Prior equity initiatives were not well implemented, systematically evaluated or well understood.

-- The Current State of Equity and Opportunities to Learn in the Santa Monica-Malibu Unified School District: Findings and Recommendations (Noguera, April 2016)
Why Prior Efforts Failed

- Lack of consistent implementation of systems, structures, processes and practices
- Failure to build capacity in support of equity because prior initiatives were abandoned
- Isolation and fragmentation across and within school sites, creating divergent approaches to key initiatives
- Lack of a coherent and cohesive focus related to teaching and learning
- A culture of opposition among some staff

Moving from Insight to Action

Equity Report called for a plan that would:

- Focus on student learning
- Be clear, and well-communicated
- Provide increased transparency and accountability
- Engage all stakeholders regularly
- Establish ongoing cycle of program evaluation and continuous improvement
- Be connected to resources
1. Create a Culture of Shared Accountability through a Systems Approach
2. Teach Cross-cultural and Socio-emotional Skills
3. Engage in Constant Self-reflection around Issues of Equity

Intentions, Behaviors, & Outcomes

Intentions

Behaviors
(personal & institutional)

Outcomes
Institutional & Personal Behaviors, Assumptions, & Attitudes

UNCONTROLLABLE

- Level of poverty
- Living conditions
- Parent education level
- Attendance
- Whether someone does homework or not
- Reading over the weekend and during the summer

CONTROLLABLE

- Having clarity of student learning outcomes
- Engagement in professional learning and execution of best teaching practices
- Authentic engagement in collaboration with peers around student learning outcomes
- Having a growth mindset
- Engaging in learning through cycles of Inquiry

Establishing a culture of shared accountability requires that leaders establish processes that drive continuous improvement.

Three essential steps:

1. School leadership team creates an Implementation Plan
   - Clarify focus, outcomes, actions and supports

2. Engage in weekly PLC and monthly SLT Check-Ins
   - Adjust actions/supports to improve the impact on learning

3. Conduct Quarterly Review of progress
   - Refine school action steps by reviewing successes and barriers
The ways in which students learn and think are deeply influenced by their cultural identity and heritage, and that to teach a diverse student population effectively requires educational approaches that value and recognize their cultural backgrounds.

**Approach 2**

Teach Cross-cultural and Socio-emotional Skills
Interpersonal Outcomes that Will Lead to Improved Academic Success

- demonstrate self-awareness, confidence, family pride, and positive social identities
- express comfort and joy with human diversity; accurate language for human differences; and deep, caring human connections
- demonstrate empowerment and the skills to act, with others or alone, against prejudice and/or discriminatory actions
- increasingly recognize unfairness, have language to describe unfairness, and understand that unfairness hurts

Establish common language and understanding of behaviors, attitudes, and conditions that serve as support or barriers for achieving the desired academic and socioemotional outcomes for all students.

Approach 3
Institute an Equity Reflective Process
